Bellchare brothers, the two men whose amazing feats of strength were a feature of the bill last week, have been retained. The Colonial Septette is also on the bill, with its wealth of song, soft lights and pretty scenic effects. ## Russia and Japan Preparing for War Again.

When Japan was crowded out of Port Arthur by Russia at the close of the Chinese-Japanese war, and the Muscovites took possession of the stronghold themselves, the conclusion was promptly reached at Tokio that the next struggle in which the nation would be involved would be with Russia. No time was lost in getting ready for it. When the clash came, the civilized world was given by Japan an exhibition of military preparedness the like of which it had never before witnessed.

Although the armies of Japan were triumphant and her ships practically wiped the Russian navy out of existence, in the settlement of the terms of peace at Portsmouth her representatives were outwitted and she was deprived of the natural fruits of victory. To all appearances the Japanese government accepted the situation gracefully, however, and proceeded at once to restore its affairs to a peace footing. But since the treaty of peace was signed, there has been a feeling abroad that sooner or later the two nations will be at war again. Russia took her defeat hard. She escaped paying a war indemnity; but she lost position and prestige in the Orient. It has intimidated, of late, that she was preparing for a renewal of the struggle on a more gigantic scale than before, in an effort to recover what she lost. Reports have escaped the imperial censor that the Russian armies are being reorganized and the military defects exposed in the war with Japan corrected, while the trans-Siberian railroad is being double tracked.

The news seems to come to St. Petersburg as a surprise, however, that Japan is making counter preparations for war. General Linevitch, the commander-in-chief of the Russian-Siberian army, has just discovered that the Japanese are erecting fortifications at strategic points throughout Southern Manchuria and Korea, and are storing enormous quantities of ammunition in them. As a matter of fact, Japan has anticipated a renewal of the struggle from the moment the treaty of Portsmouth was signed, and while she was apparently restoring her affairs to a peace basis she began to prepare at once for the renewal of hostilities. Japan is wide-awake to the conditions. She fully understands that Russia will make an attempt to recover what was lost through the last war and when it is declared she will doubtless be as well prepared to enter it as she was when the late war began. According to Linevitch's report to the general staff at St. Petersburg, the forts which the Japanese are erecting are menacing Vladivostok, which indicates that they mean to take possession of the Siberian littoral up to the Amur river and seize the northern half of the island of Saghalien, the relinquishment of which to Russia in the settlement of the peace terms, was a matter of much dissatisfaction to the Japanese people generally.

## The Battleships' Pacific Cruise.

"Fighting Bob" Evans has got into a snarl with the naval board of strategy by opposing the sailing of the battleship fleet for the Pacific by the "Horn" route. He wants the fleet to go by the way of Suez. That is the "fair weather" route, and the persistency with which he is advocating its adoption is liable to rouse the suspicion that he is a "fair weather" sailor and dreads the stormy passage around the "Horn." The naval board and the President are, however, unyielding and it looks as if "Fighting Bob" will either ask to be relieved of the command and be put on the retired list or will be summarily relieved of his command of the fleet.

The reasons for adopting the Horn route have now been officially given out. It is to give the officers and men of the fleet sea experience which it is admitted they do not now possess, because when the ships are on the Atlantic station they are more than three-fourths of the time moored in port, where the officers devote themselves chiefly to social functions ashore and the men are kept in a condition of comparative idleness on board. This confirms the views recently expressed by THE TRIBUNE.

To put the navy in a state of efficiency, the ships must be kept moving, through stormy as well as through placid waters. Riding at anchor in a safe harbor most of the time does not suit the enlisted men. Life is too dull under such circumstances, which breeds discontent and makes the service unpopular. Hence the difficulty which has been experienced in past years in obtaining recruits. The coming cruise of the battleships to the Pacific has revolutionized conditions in the recruiting offices. Last month over double the number of men were obtained by the recruiting officers than were enlisted in the same month last year. No difficulty is now anticipated of manning all the ships with full crews. When the fleet sails the admirers of "Fighting Bob" will regret to witness its departure without him in command. He has all along been such a picturesque figure in the American navy that he has become considerable of a popular idol. But he has got himself seemingly in a position where he must either voluntarily resign or be removed from the command, owing to the obstinate resistance he has shown to the course to be taken by the fleet.

With the approaching demise of Emperor Francis Joseph, the gravest crisis in the history of the dual empire of Austria-Hungary is impending. In all probability it will precipitate the dissolution of the union. The political strain between the two nations has been growing more tense from year to year for a long time past. It is only the strong personality of the Emperor which has kept them together. His death will probably be the signal for dismemberment, as there is a break in the line of succession through the fact that the aged Emperor leaves no issue. Both nations have been expecting that the Emperor's death would be followed by the dissolution of the bond uniting Austria and Hungary. The question in which Europe is deeply concerned is, Will the dismemberment of the empire be produced without bloodshed?

Hayward's prospect of securing a reduced round-trip fare to and from Oakland and increased electric railroad traffic facilities will be a big boom to that beautiful suburb and add immensely to its prosperity. Incidentally it will also advance Oakland's interests. Every improvement made in interurban communication has that effect.

## AUTO STALLS ON TRACK AND DITCHES FLYING TRAIN

### Engineer and Fireman Injured and Owner of Motor Car Has Narrow Escape From Death.

In an endurance test and general survival of the fittest, near San Lorenzo, last evening the Stockton Flyer of the Southern Pacific beated a large touring automobile belonging to H. D. Beaslee of San Francisco. Fortunately, the occupants of the motor car saw the fast-flying engine in time to disembark and save their lives. The automobile was completely demolished but not before it had decimated its opponent and given 200 passengers a severe shaking up. Besides, Beaslee claims that the contest was not fairly conducted as his involuntary entry was handicapped by a broken down machine which he had in tow.

The cause of the accident is not new, though why the automobile should choose to balk in the middle of a railroad track is more than can be explained. An automobile belonging to C. L. Southgate of San Francisco had accepted a tow from Beaslee's machine and together they were proceeding toward home. As the towing machine arrived upon the Southern Pacific tracks it coughed, gulped a time or two, and gave up the struggle. Beaslee, however, the frame with wrench and spanner and commenced repairs.

Suddenly a cry arose at the headlight of the Stockton Flyer flashed around the curve, 200 yards away. The motor enthusiasts jumped for safety and waited for the smash.

ENGINE DITCHED.  
In the engine's singular Lyons, horrified by the sight before him, struggled madly with the airbrakes in an effort to "plug" or "down" as they say. But the flyer was not to be denied. Striking the pretty red toy squarely amidships, the engine tore its way through a mass of debris, scattering the remains for 1000 feet along the track. The iron frame of the automobile twisted and turned about the cow-catcher and pony trucks. Then, a quarter of a mile down the track, it dug under the leading engine and hurled it from the tracks. Fireman Hewitt jumped for his life, receiving a bad shaking up, while Lyons undoubtedly saved his life by sticking to his post, although he was hurt.

When the smoke of battle cleared, the flyer engine lay on its side, gasping, the baggage and mail cars were toppled into the ditch, and the automobile was in bits. Investigation developed no personal injuries save to the two men in the cab, who were cared for by tender hands and hurried to physicians.

The automobile parties were badly frightened but otherwise unharmed. The wrecking crew hurried to the scene and soon had the tracks cleared, after which the train was hauled to Oakland by an extra locomotive.

Southgate's machine was practically unharmed, bad shaking up having parted when the collision came.

## WILL TELL OF BIG FORGERY

### Expert Eisenschmel to Tell Bank Clerks of Becker's Great Crime.

The next meeting of Oakland Chapter will be held next Wednesday in the Oakland Clearing House building, at 3 o'clock p. m.

There are several matters of importance to come before the chapter, including an amendment to the articles of association and also a number of applications for membership.

After the meeting Carl Eisenschmel, the well-known handwriting expert of San Francisco will give an illustrated lecture on "Forgery," explaining in detail the famous Becker crime, through-out whose trial Mr. Eisenschmel was the principal witness for the prosecution.

This forgery consisted in the raising of a \$12 draft, drawn by the Farmers' and Merchants' Bank of Woodland, Cal., on the Wells-Fargo Bank of San Francisco to \$4,000.

This is said to have been one of the most daring crimes of its kind known in the United States, and since Mr. Eisenschmel was the principal witness for the State, and it was through him that Becker was sent to the penitentiary, the story will undoubtedly prove a most interesting one.

Oakland Chapter, A. I. B., though less than three months old, holds, with its ninety-one members, twenty-first place among forty chapters of the United States, as to whose membership reliable figures are obtainable. It is the desire of the chapter officers, within the coming three months, to so increase the membership as to gain fourteenth place, thereby exceeding some of the most important chapters in the United States.

Members are urged to attend the meeting on the 16th inst., and to bring with them any friends who might become interested in the organization.

## ROBBED OF \$100 BILL DURING COLLEGE GAME

Bernardo V. Shorb, of San Francisco, who achieved considerable notoriety recently through the fact that his bride, the daughter of John B. Sheehan, deserted him just three weeks after his wedding, has reported to the police that he was robbed of a \$100 bill at the inter-collegiate Rugby match in Berkeley on Saturday afternoon. Thus far the police have obtained no trace of the thief.

I suffered habitually from constipation, Doan's Regulator relieved and strengthened the bowels, so that they have been regular ever since. A. E. Davis, grocer, Sulphur Springs, Tex.

## SCHWAB TO AID WARSHIPS

### Hurrying to Coast to Prepare Docks—Eastern Workmen May Come.

SAN FRANCISCO, Oct. 14.—Charles Schwab, head of the Union Iron Works, is on his way to this city, where he will make arrangements for the reception of the big fleet of warships due here next March, in case it should be necessary to dock any of them for repairs at the company's yard.

Schwab will take personal charge of the arrangements. A. J. McGregor, president of the Union Iron Works, said last night that so far as he knew there would be no extensive changes or improvements in the works, which will, he says, be able to dock all of the vessels in the fleet, if necessary.

For some time A. J. McGregor, president of the Union Iron Works, has been in consultation with his chief, Charles Schwab, regarding the work necessary to be done on the plant of the Union Iron Works in order to handle the floating castles when they arrive.

UNSATISFACTORY.  
These long distance conferences were unproductive, so Schwab left New York last Saturday in his private car and will arrive in San Francisco next Wednesday night. He will take personal charge at once. McGregor stated last night that, so far as he was informed, President Roosevelt had not entered into the matter personally, but he believed it extremely likely that there had been conferences between the chief executive and Schwab before the latter left the East. He was certain that the navy department had been in communication with his chief.

The government doubtless will need our assistance in caring for these ships when they arrive, as the Mare Island yard will not be able to handle all of them as fast as may be necessary. We will be able to dock all of them here in San Francisco, despite the statement of some of the Eastern papers to the contrary and also despite the fact that at present our own drydock is out of commission. Hunters Point drydock will answer the needs of all but the very largest of them and we can attend to the rest of the work if it proves too much for the navy yard.

LABOR INTERESTED.  
WASHINGTON, Oct. 14.—In connection with the procurement of the large amount of labor necessary on the Pacific coast to man the regatta in the battleship fleet when it reaches California next year, the navy department is considering a proposition which will undoubtedly cause a great stir among labor unions on the coast.

This is to induce Eastern laborers to go there by giving them and their families free transportation, provided they contract to remain in the government's service for a certain time.

Of course, higher wages must be paid than are common in the East as a necessary feature of this plan.

## SAY POLYGAMY IS NOT DEAD

### "Tony" Ivins of Mexican Mor- mon Colony Takes to Him- self Second Wife.

SALT LAKE CITY, Oct. 14.—Polygamy is not dead in Utah. On the contrary, plural marriage flourishes, despite the manifesto by which it was agreed to abandon the practice as a concession to Utah.

The Salt Lake Tribune says: The Mormon hierarchy, in elevating Anthony ("Tony") Ivins of Mexico to the apostleship, appears to have overlooked the fact that his predecessor, the late George Teasdale, was a two-ply polygamist, while Apostle Ivins can boast of only two better halves.

Apostle Ivins was a monogamist until he went to Mexico. Mrs. Ivins No. 2 was Miss Knell of Topeville. The "marriage" took place about eight years ago. Two years later a son was born to Mrs. Ivins No. 2. Mrs. Ivins No. 1 was Miss

## VANDERBILTS RECONCILED

### Mother and Daughter-in-Law and Brothers Become Friends.

NEW YORK, Oct. 14.—A special to the Journal from Newport says:  
For the first time since the death of their father, eight years ago, Alfred Gwynne Vanderbilt was a guest at the home of his brother Cornelius yesterday. In addition to this Mrs. Vanderbilt, elder, was also a guest at luncheon, and for the first time met her daughter-in-law socially. It is said in Newport that there is a complete reconciliation of the Vanderbilts. Had the recognition of the daughter-in-law come eight years ago, Cornelius Vanderbilt, and not Alfred Gwynne, his younger brother, would today be the head of the Vanderbilt family.

The reconciliation of the two brothers was brought about Saturday night at the Breakers, and the mission of peace by Battony against his wife and her relatives. The former professional whip told of almost incredible persecutions which he said he has endured since his marriage, and indicated his belief that his father-in-law was behind them.

"I know nothing regarding Mrs. Battony's divorce proceedings," said Work. "If anyone says I told her to get a divorce they are wrong. I care nothing about the matter, and I will not discuss it further."

on the part of the mother to her eldest son's wife was occasioned by the firm refusal of the latter to attend that dinner.  
It was the first time she ever had been invited to cross the threshold of the Breakers. Her name had been given out as one of the invited guests, but the woman, who had been ignored as thoroughly as possible since the day she became the wife of Cornelius Vanderbilt Jr., made it very evident that if there was to be any reconciliation, that Mrs. Vanderbilt must come to her.  
Following the dinner given in honor of Count Szechenyi and Miss Gladys Saturday night there was a little gathering of the Vanderbilts. "We should all get together somewhere tomorrow for lunch," Mrs. Vanderbilt is reported to have said. Cornelius Vanderbilt suggested his home. His mother looked at him. On all sides it had been remarked lately that Cornelius' wife was not present. "If Grace will not come to my house, I will go to her's," the mother said.

## MILLIONAIRE FATHER ANGERED AT DAUGHTER

NEW YORK, Oct. 14.—Frank Work, the millionaire, father of Mrs. Aurel Battony, who was Mrs. Burke Roche, said yesterday that his daughter would never be allowed to return to his home. He declared that he had never forgiven her since her marriage and he denounced Battony in unmeasured terms.

Work's interview, the first to which he has consented since his daughter's disagreement with her husband, came as the result of extraordinary charges made by Battony against his wife and her relatives. The former professional whip told of almost incredible persecutions which he said he has endured since his marriage, and indicated his belief that his father-in-law was behind them.

## HEALTH OF WOMEN

In this nineteenth century to keep up with the march of progress every power of woman is strained to its utmost, and the tax upon her physical system is far greater than ever. In the good old-fashioned days of our grandmothers few drugs were used in medicine. They relied upon roots and herbs to cure weaknesses and diseases, and their knowledge of roots and herbs was far greater than that of women today. It was in this study of roots and herbs that Lydia E. Pinkham, of Lynn, Mass., discovered and gave to the women of the world a remedy more potent and efficacious than any combination of drugs.

**Lydia E. Pinkham's Vegetable Compound** is an honest, tried and true remedy of unquestionable therapeutic value. This medicine made from native roots and herbs contains no narcotics or other harmful drugs and today holds the record for the largest number of actual cures of female diseases of any medicine the world has ever known, and thousands of voluntary testimonials are on file in the laboratory at Lynn, Mass., which testify to its wonderful value.

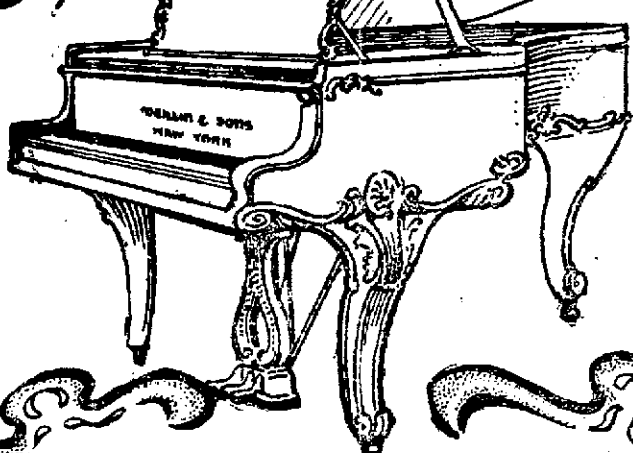

Mrs. C. E. Fink, of Carnegie, Pa., writes:—Dear Mrs. Pinkham:—“I wish every suffering woman would take Lydia E. Pinkham's Vegetable Compound and write to you for advice. It has done me a world of good and what it has accomplished for me I know it will do for others.”

When women are troubled with irregularities, Displacements, Ulceration, Inflammation, Backache, Nervous Prostration, they should remember there is one tried and true remedy, Lydia E. Pinkham's Vegetable Compound.

**Mrs. Pinkham's Standing Invitation to Women** Women suffering from any form of female weakness are invited to write Mrs. Pinkham, at Lynn, Mass. Out of her vast volume of experience she probably has the very knowledge that will help your case.

## DESERTS AMERICA FOR HOUSE OF LORDS SEAT

NEW YORK, Oct. 14.—A London cable to the Journal says: America is soon to lose her only genuine peer. Up to this time the United States has been able to retain as citizens noblemen holding titles acknowledged by the House of Lords. This unique situation will soon pass, for Lord Fairfax of Cameron is going to abandon his American citizenship in order to be able to take his seat in the House of Lords. Lord Fairfax has been contemplating applying for his English naturalization for a long time, and a few days ago all necessary naturalization papers were received by the home office, including evidence of the fact that his lordship has resided for five years continuously in England. His lordship's papers have been found satisfactory by the authorities and the final certificate has been sent to his lordship for signature. When Lord Fairfax signs this certificate his name will be published in the official gazette as a British subject.

Daniel Riley, a negro, was arrested for misdemeanor embezzlement on the complaint of his mother-in-law, Mrs. Clara Lillard, of 124 Thirtieth street, last night. She alleges that she gave him money to buy articles for use in the household and that he spent the coin on himself.

## S.S.S. KILLS THE GERMS OF MALARIA

When the germs of Malaria get into the blood they destroy the rich, nutritive qualities of this vital fluid and reduce it to such a weak, watery condition that it is unable to furnish the system with the nourishment and strength necessary to keep it robust and healthy. The complexion grows pale and sallow, the appetite fails, digestion is deranged, a bilious condition of the system is set up, and often chills and fever make life miserable for the person in whose blood this insidious poison has taken root. There is but one way to rid the system of Malaria and that is to purify the blood of the germs of the disease, and S.S.S. is the remedy to accomplish this. It goes down into the circulation, destroys the germs, purifies and strengthens the weak, watery blood, making it rich health-giving and health-sustaining stream, and makes a lasting cure of Malaria. Malarial persons will find S.S.S. not only a prompt remedy but a pleasant acting one, as well as a certain cure for this debilitating disease. Besides removing the cause of Malaria S.S.S. builds up every part of the system by its fine tonic effects. Back on the blood containing information about Malaria, and any medical advice desired free to all who write.

## SOCIETY GOSSIP

(Continued from Preceding Page.)

The ceremony is to be performed by the Rev. Earl M. Wilbur, dean of the Unitarian School, and the Rev. F. L. Rosmer, who was Mr. Lathrop's predecessor in the picturesque Berkeley church. The Rev. Sidney E. Snow, a college friend of the bridegroom, is to attend as best man. Ralph Merritt, Oscar Schlessinger and Walter von Manduschied are to serve as ushers. It is safe to predict that the pretty Berkeley church will be crowded to the doors.

**MADAME NEUSTADT, SOLOIST.** At the First Congregational Church yesterday morning Madame Neustadt sang the offertory. Many were present who had heard the singer in the same house of worship some years ago, and on all sides one heard expressions of appreciation of the pretty courtesy of the distinguished singer. Madame Neustadt is

joyed last night at the Henry A. Butters home in Piedmont, when Mrs. Butters and her two daughters, Miss Marguerite and Miss Marie, returned after three years of wandering. Mrs. Butters and the young ladies are very well, and are delighted to be at home again. Of course, the engrossing topic in the household is the coming wedding of Miss Marie Butters and Victor Metcalf, preparations for which are very well along. No date is yet decided upon, but the day is not far distant.

**SUCCESSFUL AFTERNOON.** A very successful afternoon was given at the home of Mrs. Grace Hayden on Thursday afternoon of last week by the Chancel Chapter and the Parish Work Chapter of St. Paul's Episcopal Church. A sale of fancy articles was the feature of the day, and the receipts of the day surprised even the workers. The Chancel Chapter cleared \$35, and the Parish Work Chapter something more than \$125.

The marriage of Miss Eastman and Mr. Kenyon will be an interesting event of the early spring at the Eastman home in Alameda.

### PRETTY WEDDING.

Last Wednesday morning St. Mary's Church was the scene of a very pretty wedding when Miss Margaret McBrien of this city, daughter of Mr. and Mrs. Patrick McBrien, and John H. Wilson of San Francisco were united in marriage by Rev. Father Dempsey.

The bride was attended by Miss May Doling as bridesmaid, Edward Carey supporting the groom. The bride looked charming in a gown of point de esprit over white silk and carried a shower bouquet of lilies of the valley.

The bridesmaid, Miss May Doling, was becomingly attired in white silk mull and carried white carnations. The church was beautifully decorated and following the ceremony an elaborate breakfast was served at the bride's home on Oak street, under the direction of Italianan to which about forty friends had been invited.

The wedding gifts were very beautiful and testified to the popularity of the young couple.

After a honeymoon spent in Southern California, the couple will take up their residence on Geary street, San Francisco, where the groom has prepared a pretty home.

### OAKLAND CLUB.

The annual breakfast of the Oakland Club, set for Wednesday of this week, promises to be one of the season's most interesting affairs. Each member has the privilege of inviting one guest, and at that rate a company of goodly numbers will gather at the Oakland club rooms at noon on Wednesday.

The club has invited as its guests the presidents of all the clubs in the Alameda district.

One of the treats of the day is to be a talk by Madame Soda Neustadt, who has also accepted the club's invitation. She will give a talk on vocal art, similar to those given at the Home and Twentieth

### FIGHT RESULTS FROM ARREST OF BARTENDER

As a result of the arrest of D. J. Mack, a bartender in the Forum Cafe, on a charge of holding out cash taken from customers at the bar, Hermy Mack, a porter employed at the same establishment, is booked at the City Prison on a charge of battery preferred by James Suckerman, a handy man, also of the Forum.

Suckerman and Rickard became involved in an argument as to which of them had been the cause of the trouble with the alleged friend of the bartender, and it is charged that Rickard struck Suckerman over the head with a bucket.

Detective McSorley arrested Bartender Mack shortly after midnight on Sunday morning. He claims that by the use of marked coins he has succeeded in establishing a charge of petty larceny against the man.
